

The Royal Visit.

Winnipeg, Sept. 20.
The royal party spent a quiet day in Montreal out of respect to the late President McKinley's funeral. The Governor of L.L.D. was conferred on the Duke and Duchess by McGill. The party for Ottawa will be made at 9:30 this morning.

THE WAR.

RUSS AGAIN ON WAR PATH.
Two British Disasters.
Two Hundred British Captured by Botha.
2 Killed and 21 Wounded by Botha.
Botha to Invade Natal.

London, Sept. 19.—The Boers have captured two hundred British troops and three guns at Schoep's Nek. A dispatch from Lord Kitchener, dated the 18th, announced that the Boers, Sept. 17, ambushed three companies of mounted infantry, with four guns, commanded by Major Gough, in the vicinity of Schoep's Nek. After severe fighting the British were overpowered and lost their guns, the eight and breech loaders which were first destroyed. Two officers and four men were killed and five officers and twenty-five men wounded. Five officers and 150 men were made prisoners. Major Gough who escaped during the night reports that the Boers numbered a thousand men and that they were commanded by General Botha.

Gen. French reports that Commandant Smith in order to break through a cord, rushed on a squadron of the 17th Lancers at Elands River post, killing three officers and twenty men and wounding one officer and thirty men. The Boers who were armed in khaki, were mistaken for British troops, lost heavily.

Petermaritzburg, Natal, Sept. 19.—In view of the imminence of the re-invasion of Natal by Gen. Louis Botha who is expected to arrive in a special train of the Guelphs has called out a number of men of the Natal corps to meet him to-day.

General Telegraphic.

BRITISH TORPEDO BOAT LOST.
President McKinley's Funeral.
Vessel Lost on Lake Superior.
Deadly Hotel Gas.
Martin Candidate Defeated.

St. M. S. torpedo destroyer Cobra, sent to the bottom in the North Sea, as a result of an explosion. Sixty-five of the crew are believed to have perished.

The late President McKinley's funeral took place at Canton, Ohio. The remains were interred after elaborate ceremonies. Memorial services were held throughout the world.

The steamer Hudson, Duluth, to Buffalo was hit in Lake Superior and crew of twenty-four perished.

George Fox, of Gladstone, Man., recently of Bedford, Ont., died from pneumonia at the Manor hotel Winnipeg.

H. D. Hencken may be asked to join the British Columbia ministry, as was defeated by Gifford in New Westminster by 52 votes.

The committee which investigated at Niagara, N. Y. state, the charges against two Ontario Methodist ministers, has reached a decision. Sanders is suspended and Macdonald is returned.

Mrs. Butler, alias Miss Bower, of London, was committed for trial in Winnipeg on a charge of forgery.

The 20th congress at Brantford refused to admit to the managing labor party.

The Winnipeg trades and labor council passed a resolution concerning the match race between the Abbot and Cresscut at Readville, Mass.

Two ladies have died as the result of a trolley car collision at St. Catharines.

Ontario timber limits sold on Tuesday at high figures in Toronto.
The Car witnessed a review of 140,000 French troops at Rheims.
John Nisimith, a bank teller of Chicago, was found drowned.
Gen. Louis Botha with a force of 200 is threatening Natal.
Dr. W. F. Pratt, of Ottawa, died suddenly at the capital.
Premier Ross, of Ontario, has arrived in Boston.

LOCAL.

—Quang Wo went south Wednesday. Stephen Wilson, of Red Deer, came on Monday.

—J. Coleman, came in on Tuesday from Beaver lake.

—"Ebot" is expected daily with the season's fur purchase.

—Dr. Melnyk visited Wetaskiwin professionally on Tuesday.

—W. H. Cooper, license inspector, went south on Wednesday.

—No oaks are being offered on the market. Dealers are retailing at 35c.

—G. W. Manuels returned on Tuesday from a business trip down the line.

—A shipment of 500 lbs. of butter was made from the creamery on Wednesday.

—J. Cameron of Sandon, B. C., came in Monday on a visit to his parents here.

—A large delegation of land seekers left town on the 17th inst., for Western Canada.

—R. Hoar and H. Aldridge bagged several brace of chickens on Monday morning of town.

—Messrs. R. Hockley and A. E. Potter returned yesterday from a shooting trip south.

—A raft of dry wood for P. Anderson's brick yard was brought down the river on Monday.

—Mrs. Dr. Harrison and Miss Grace Peterson left on Tuesday's stage for Athabasca Landing.

—C. W. Supply, of the Imperial Bank staff, returned on Tuesday from his holidays in the south.

—W. C. Gilles came in during the week from Fort Saskatchewan for treatment at the public hospital.

—J. H. Morris and Geo. Goun bagged 25 chickens on Monday. They went out by Belmont to the Sturgeon.

—Mrs. H. C. Macdonald holds her first millinery opening on Wednesday evening.

—M. McCauley, M. L. A., returned from Beaver lake, on Tuesday accompanied by Mrs. McCauley and daughter.

—Andrew McCredie, a wealthy farmer from Bristol, Pontiac Co., P. Q., is here on a visit to his nephew, A. E. Pattison.

—P. H. Scanlan, travelling passenger agent for the Chicago, Milwaukee & St. Paul railway, came in on Monday evening.

—Messrs. J. A. McLaughlin, T. Houston, W. Shott, and Mayor MacKenzie left on Tuesday for Beaver lake on a shooting trip.

—Strathcona celebrated the opening of the chicken shooting season by a civic holiday. The chickens are said to have suffered from the weather.

—Secretary-Treasurer Kinnaird has been granted a week's pass and left on Wednesday on a shooting trip. Mr. Kinnaird is a resident of the city.

—The office formerly occupied by G. W. R. Alpa is being re-arranged when completed will be occupied by the Canada Permanent and Western Canada Mortgage Corporation.

—J. S. Dennis, deputy commissioner of public works, came in from Regina on Monday evening and on Tuesday left to inspect the ditch under construction by the department at Monteville.

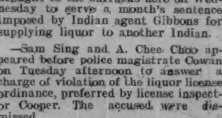

—John D. McAllister, of Beaver lake, took out a new twelve horse threshing machine by MacPherson & Hovey, of Regina, Ont., on Tuesday. Mr. McAllister sold his steam thrasher to Mr. Ranch, of Beaver lake.

—The following land seekers arrived on Wednesday to look over the Edmonton district. Frank Robinson, Washington; J. A. Young, Iowa; T. J. Mabee, Kingston, Ont.; S. Prud'homme, Breslau, Ont.; Robert Brydon, Guelph; Tilman Bowman, Berlin.

—The following land seekers returned from the Vermilion district on Wednesday. M. C. Allen, J. W. Tinkler, John Tinkler, A. J. Stratton. All were highly pleased with the district and have decided to purchase C.P.R. lands. They went south to Wetaskiwin on Thursday.

J. T. BLOWEY.

Another car of our Cheap and Medium priced DINING ROOM SUITS just unloaded.

—Thos. Rain, an Indian from the White Whale lake reserve, who brought to the barracks here on Wednesday to serve a month's sentence imposed by Indian agent Gibbons for supplying liquor to another Indian.

—Sam Sing and A. Chee Choo appeared before police magistrate Cowin on Tuesday afternoon to answer a charge of violation of the liquor license ordinance, preferred by license inspector Cooper. The accused were dismissed.

—A kiln of 100,000 brick was finished burning early in the week at P. Anderson's yard and another of 150,000 fired. Experiments were recently made in the yard in the manufacture of drain tile. Very good samples were produced but the recent frosts checked them before dry.

—A sample of coal assurance was a prairie chicken perched on the sign of Vogel & Tomlinson's meat market, on Saturday evening, just before the opening of the shooting season. Its assurance was evidently coupled with the sublime confidence in the law-abiding character of the citizens of Edmonton.

—The funeral of the late John A. Sheen, who died on Saturday evening at the general hospital, took place from McIntosh & Campbell's undertaking rooms on Tuesday afternoon, interment being made in the Edmonton cemetery. The pall-bearers were: Messrs. W. Carruthers, H. Bonus, J. McCorkindale, and E. K. Gies.

—Friends who came from the same part of Prince Edward Island as the deceased.

—Engineer Armstrong expects to have the railway grade completed this week from the junction with the C. & E. to Vogel's ranch. Almost the entire gang have been concentrated on this portion of the grade, to hasten its completion in order that camp may be removed farther north. A considerable length of grade has been made from the southern end of the bridge, several teams being engaged there during the week.

—The engagement is announced of Mr. Richard Cox, the youngest son of the late Rev. Thos. Cox, M. A., of the Heath Grammar school, Halifax, Yorkshire, and who was for 18 months in charge of St. Matthew's, Athabasca Landing, to Miss Eliza Ann Scott, eldest daughter of Francis Scott, Esq., of Derrydale Co., Canada, Ireland, and who for the past year has been teacher at the Indian boarding school Wapuskaw, in the diocese of Athabasca.

—Dr. Archibald, of Strathcona, sustained a severe fracture of one leg on Monday afternoon while driving with another gentleman near the new railway grade. One of his horses became restive and got a foot over the pole when the doctor jumped from the rig and lighting on the hard ground sustained the injury mentioned. He was brought to the general hospital Monday evening where Drs. Whitelaw, Harrison and Hilda repaired the fracture. The patient is progressing satisfactorily.

—R. C. Laurie, D. L. 2, and district engineer, the Territorial government, for Central Alberta, returned south on Tuesday's train after a short visit to his sister Mrs. Gaudry.

Mr. Laurie has been engaged for some weeks past in connecting the land allowances surrounding the town of Red Deer and Wetaskiwin. He is now going to make some trial surveys in the neighborhood of Damsel.

Mr. Laurie served in South Africa last year as a major in the Strathcona Horse. He visited Edmonton thirteen years ago and is much impressed with the progress of the place. He is a son of P. G. Laurie, editor of the Battleford Herald, and is one of the pioneers of the West.

—Some what over two dozen reports have been made by secretaries of school districts in Northern Alberta in compliance with the efforts of the local board of trade to procure as nearly as possible an estimate of the total grain crop for the current year.

TOWN COUNCIL.

The council met Wednesday. The mayor and secretary-treasurer, the acting mayor, Dr. Beck, presided over the meeting while solicitor N. D. Beck assumed the duties of secretary. Councilors present were Brown, Blowsy, Henry and Goodridge.

The following communication was read:

Edmonton, Alta., Sept. 18, 01.
The Edmonton Town Council,
Edmonton, Alberta.

Dear Sirs.—We the undersigned ratepayers of the town of Edmonton desire to lay before your honorable body a proposition regarding the water supply for the town of Edmonton which should be the same met with your approval, we are prepared to carry out.

We propose to dig a well at the old ferry with underground piping leading out to the river, with one hundred and fifty feet, and also have a gate on the river bank which can be used for the purpose of cutting off the supply of the water from the river whenever it may be deemed advisable to pump out or clean out the well. The pipe connecting with the river is to be sunk 18 inches below the bed of the river and to be properly filled in so as to permit the water to be filtered.

We have already secured an option for a site to be used as a pumping station and a right-of-way from the river to Main street along side of the Bulletin office. And we will be willing to place the tank which we propose to build on any site which your honorable body may select, provided you supply any necessary pump and engine.

We also propose to build a tank fourteen feet in diameter and fourteen feet in height, having a capacity of nearly double the water tank now in use, and being built on the sides with 3 inch planks, while the bottom is to be constructed of 4 inch planks. Under the tank will be built a room for office purposes which will be heated in a suitable manner, while the tank itself will be made of iron plates.

We also propose to lay off piping on level ground below where frost could reach it and have piping properly laid so as to prevent freezing and rust.

In consideration of our supplying the plant necessary and suitable for the purpose of supplying water to the town and putting the plant in a position to meet the demands of the public we would make the following request:

To be given the sole right to sell water from the tank to all teams and tanks delivering water to houses in the town of Edmonton at the rate of 3 cents per barrel or 42 gallons (ordinary coal oil barrels), transient buyers of water at the rate of 10 cents per barrel.

On our part we would agree to supply a clear, wholesome water, and furnish water both day and night if required.

We would agree to furnish the town of Edmonton with fit water free of all cost, for fire protection.

We would propose to have pipes laid with valves and stop cocks at that water could be taken from pipes at any point in the town. We suggest a site being chosen up Queen street.

We would propose that your honorable body should at once cancel your contract with the present water supply company for reasons which must be obvious to you. We might point out that at present as supplied by the present company the supply of water is both deficient in quality and quantity. Moreover the plant as used now is in such an ill state of repair that it would be both unwise and unsafe to expect the present company to supply the town with water during the next winter. The pump and piping of the present plant being a defective and incapable of supplying the demand for water. We would therefore request your honorable body give this matter your consideration.

Yours truly,
(Sgd.) J. R. BRENTON.

John R. Brenton was heard in support of the letter. He stated that there were interested with himself Messrs. D. R. Fraser and John Kelly and they were willing to put \$2,000 in the venture and more if necessary. Asked by Coun. Goodridge why he asked for the present agreement to be abrogated he replied because of the continual deficiency in both quantity and quality of the water supplied. The water at present given to the public from the tank, he declared, was unhealthy, and the situation was one of grave importance to the health of the community. He did not propose to make himself liable to a criminal action, for supplying unwholesome drinking water and, therefore, asked for a new arrangement to be entered into. The matter was referred to the fire, water and light committee to see where they stand in regard to the present agreement.

Stinson & Co. brokers, are anxious to buy Edmund's waterworks and fixtures and wrote asking when they would likely be on the market. They were informed that it was impossible to say just yet.

National Iron Works also wants to supply the iron piping for the waterworks system, their letter was filed.

J. C. F. Brown complained of the flooding of his lots on the corner of Victoria avenue and Seventh street, causing a suspension of building operations. He claimed that it was due to defective drains and asked that action be taken within 24 hours to remedy the default or else he would be forced to bring suit. This was referred to the board of works.

The city of Calgary's invitation to the mayor and council to participate in the Duke of York's reception celebration was acknowledged and filed.

W. J. Webster telegraphed that he was leaving on the 17th with some of his family and his wooden mill plant for Edmonton.

Dawson & Graham were informed that they could reduce the Bananman estate property, sold for taxes, for \$965.05.

Medicine Hat gave particulars about their waterworks and asked that they be offered any other information in their power.

Montreal Pipe Co. asked to supply pipe for the waterworks.

Dr. Wilson wrote reporting a case of measles on the flat and complaining of the negligence of the medical health officer. He stated that he had a letter in stating that through inadvertence the first report of the existence of the disease had been misinterpreted in charge during his stay at meeting having in the meantime been

referred to the health and relief committee for investigation.

A petition was read for the improvement of the Cliff grade. W. Humberstone was heard in support. He thought the road could be made passable for the winter at least for \$25 or \$30. Referred to board of works with power to act; expenditure not to exceed \$25.

A number of the residents of the flat at Fraser's mill asked for town to purchase lots on top of hill in order to give them an outlet. This was referred to finance committee. Petition for an electric light on the corner of May and Howard streets was referred to fire, water and light committee.

Cost. Dece will be supplied with a pea jacket.

The matter of the Conat. Pattison charges was brought up, having been referred from last meeting. It was further laid over until next meeting. Coun. Brown re-opening the question with some additional charges.

Coun. Blowsy reported that nothing had been done re the pound.

Two tanks will be procured and placed at the Imperial Bank corner.

Accounts were passed as follows:

Bulletin Co.	\$ 3.00
Pay sheet, street labor.	32.65
Ross Bros, hardware.	10.47
Walter & Humberstone, lumber.	18.93
W. H. Clark.	1.00
H. H. Parsons, nails.	5.00
Ross Bros, repairs.	8.40
Fire brigade, alarm.	22.00
Ross Bros, handicaps.	7.00
H. H. Graydon, vaccine.	1.05
	\$105.50

PROSPECTS FOR OATS

As the season advances the prospects for fair prices for oats in Alberta improve. In the first place Alberta is not going to have as much oats as was expected a month ago. Therefore we will not be crowding each other so much. In the next place Manitoba is not going to have as much oats as was expected six weeks ago. It is true the Manitoba crop will run into the millions of bushels. But the supply of oats is required for the province. Throughout the greater part of the province there are no local horse feed. Along the Manitoba North Western branch is the only part of the province where oats are an important crop. Good times make a good demand for oats. With extensive railway construction in progress and with greater lumbering operations going on than ever before there will be a brisk demand in Manitoba for the local crop. Five oatmeal mills which have been closed down for a year and a half will begin operations and will try to catch up with the loss suffered from enforced idleness. The severe drought in the Middle Western States and consequent short crop has made a brisk market for oats south of the line, so that even if the United States duty prevents Manitoba from exporting at least it will protect Manitoba oats, and especially Manitoba oatmeal mills, from United States competition in Manitoba, which has been a cause of complaint in previous years.

The same shortage of corn and consequent demand for oats will have a very direct and favorable effect on the Kootenay market. The agricultural region of Eastern Washington and Oregon and Northern Idaho tributary to the city of Spokane has had a record crop of wheat and oats. This the district gives rise to a very strong competition in the Kootenay, and we might have looked for a complete break down of the market from there. From recent issues of the Spokane papers it appears, however, that the drought stricken states are going to need all the oats the Palouse country has to spare. The railroads are giving special rates on oats eastward and there is every prospect of the surplus being disposed of without being placed on the Kootenay market.

These indications are all hopeful. The drawback is that the demand in Kootenay is not brisk owing to dull times there. If all the chances are counted it is likely there is still more oats in Alberta than the Kootenay market. We might get rates that will let our oats into the Kettle river district, and export rates to the coast, before we can be safe to dispose of our crop. Lacking the element of safety we can only expect the market to be uncertain and unsatisfactory, a condition which will do an injury to every one and a drawback to the country.

IMPERIAL WAR MEDALS.

Will be presented by His Royal Highness the Duke of Cornwall and York as follows:

At Winnipeg, city hall, September 26, about 1230 p. m.

At Regina, government house, September 27, about 1230 p. m.

At Calgary, at or near railway station, September 28, about 830 a. m.

Entitled to Medals.

The following officers, non-commissioned officers and men will be able to receive their medals at any presentation named. Members of the Second (Special Service) Battalion Royal Canadian Regiment Infantry; Royal Canadian Dragoons; Canadian Mounted Rifles; the brigade staff, and "C," "D," and "E" Batteries, R. C. F. A.; officers sent from Canada for instructional and other purposes, including chaplains and nursing sisters, Canadian postal corps, artificers enlisted in Canada for service with the regular army, and those members of Strathcona's Horse who have not already received their medals.

Procedure.

Individuals who desire to parade must call upon the officer in charge of the medals beforehand (excepting at the places named below) for the purpose of being identified, and in order that a list of those who will parade may be prepared and their medals set apart. No individual will be able to receive his medal who does not comply with these instructions:

At Calgary application to be made to officer commanding N. W. M. T. station.

Non-commissioned officers and men could be able to produce their discharge certificates to facilitate their identification.

Individuals who are unable to parade before His Royal Highness will be able to obtain their medals by applying to the adjutant general, headquarters, Ottawa, after the royal tour is terminated.

Medals of deceased soldiers will be delivered to the next of kin if personal application is made to the officer in charge during his stay at any of the places above named.

THE RAILWAY.

Work on the railway has progressed briskly this week, since the return of contractor McCormack from Calgary. More teams are coming on every day and there is no doubt about the completion of the grading during October. Grading will be practically completed to Vogel's butchering establishment five-eighths of a mile from the bridge this week. The contractor will move camp to a point near this end of the work early next week.

The contract for the work on this side of the bridge, including the sidings, was let on Thursday to M. McCauley, who will begin work at once. The letting of this contract shows how determined the company is to secure the completion of the work.

Engineer M. C. McFarlane arrived on Tuesday from the St. Charles branch of the Canadian Northern, to take over the work here from engineer Armstrong, who leaves next week for Prince Albert, making an exploratory survey for the Canadian Northern line. He will travel between the Battle and Saskatchewan rivers. On reaching Prince Albert he will at once commence survey of the C. N. R. line westward, and will be joined later by Mr. McFarlane, when the work on the Edmonton extension has been completed.

At present engineer W. Burns is locating the C. N. R. line from the present end of the track to Prince Albert. It is evidently the intention of the C. N. R. people to rush western reconstruction next year.

NORTH-WEST PUBLIC WORKS.

J. S. Dennis, deputy commissioner of public works, came in from Regina on Monday evening in connection with the road improvements and drainage systems being undertaken by the department in this district.

On Tuesday in company with A. S. Driscoll, D. L. S., Mr. Dennis drove to Morrisville returning Wednesday to inspect the drain being dug there to drain the flats into Big lake, St. Albert. Work on the drain has been somewhat slower than was hoped on account of the scarcity of labor and teams.

Yesterday the deputy commissioner and M. McCauley, M. L. A., visited Stony Plain to inspect the improvements being made on the base line there.

NELSON, B. C. PRICES.
